

- RG59 / RG 6 / CATV "F" Connector Crimp Tool
- 0.225" / 0.350" / 0.360"

Technicians and installers need to have reliable tools, and we offer tools that make your job easier. A ratcheting crimp tool reduces fatigue on your hand by reducing the amount of pressure needed to crimp the connector. If you have a lot of crimping to do, this tool is a must. Accommodates RG59 and RG6 connectors; plus the laminated steel construction will last for years. Contoured handle for added comfort.

- Ratcheting operation reduces hand fatigue
- Accommodates RG59 and RG6 Connectors
- Laminated steel construction
- Contoured handle
